PORTS OF CATALONIA
CARGO
01
Ports de la Generalitat is a public-sector company affiliated to the Department of Territory and Sustainability of the Generalitat of Catalonia. Ports de la Generalitat is in charge of running all non concessioned fishing harbours, marinas and cargo ports directly managed by the Catalan government. This is a total of 26 facilities where among them the cargo ports of Palamós (Girona), Vilanova i la Geltrú (Barcelona), Sant Carles de la Ràpita and the port of Alcanar (Tarragona) are part of it.

All the commercial ports of Ports of Catalonia are recognised by ISO 9001, 14001 and EMAS certification in compliance with ISO Quality system requirements and good environmental practices which certifies the high quality port services from ship to office, in strictly compliance of the ISPS CODE and waste management under MARPOL auspices.
5 REASONS TO CHOOSE THE PORTS OF CATALONIA

· Terminals specialized in general cargo, bulk and project cargo
· Flexibility and highly client orientation
· Intermodal connectivity
· Low rate of incidences
· Terminals operated by long experienced shipping companies
The main commercial activity in Catalan Ports are based on the following products:

- Salt
- Wood Pulp
- Minerals & Steel Products
- Cement
- General Cargo using an offshore platform
The Port of Palamós is located in an important fishing and trading town called Palamós, which enjoys a privileged location midway between the Port of Barcelona and that of Marseilles.

The port of Palamós is in one of the deepest bays of the western Mediterranean, sheltered from the strong north winds and safe for all types of vessels.

**PRINCIPAL ADVANTAGES**
- Easy access for shipping.
- No limits are imposed, by either vessel length or draught.
- Efficient, easy, close-by and flexible.
- High degree of specialisation.
- Warehouses and machinery for loading and unloading merchant ships managed by specialised logistics operators.

**COORDINATES:**
\[ l= 41º 50' N \ L=003º 07' E \]

**WINDS:**
North (N) and northwesterly (NW) winds, with predominance of northeasterly (NE) and southwesterly (SW) winds in summer.

**ENTRANCE:**
320 metres with a depth of 21 metres.
